

# Combined Quarts Pressure and Casing Collar Locator (QPC)

## TECHNICAL INFORMATION:

- Diameter 1 11/16"
- Length 48.3 cm / 819.01"
- Weight 4.0 kg / 8,8 lbs
- Temp. rating 177°C / 350°F
- Pressure rating 1035 bar / 15 000 psi
- Resolution < 0.008 psi & <0.005 °C
- Accuracy 0.02% FS & 0.15 °C
- Pressure response <1 sec for 99.5%
- Pressure Aging < 3 psi/year
- Depth offset 15 mm / 0.67" pressure  
203 mm / 8,54" CCL

## APPLICATIONS:

- Depth control in casing and tubing
- Location of severe casing or tubing damage
- Confirmation of perforation depth/intervals
- Draw-down and build up pressure transient analysis
- Down-hole pressure gradient measurement
- Data for P.I. and Nodal Analysis

## COMMENTS:

- Memory and/or surface read out available
- Corrosion resistant throughout
- Runs in combination with other Sondex tools (e.g. MIT)
